

MOHAMAD RAMADAN JAMALO

SENIOR FRONT-END DEVELOPER

Dubai, United Arab Emirates | +971 56 169 8210 | ramadanjamalo@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Senior front-end developer with 8+ years of experience building and modernizing web applications across banking, government, and SaaS environments. Led the end-to-end migration of a legacy banking platform to a Vue 3 + TypeScript single-page application, owning front-end architecture, requirements definition, and performance optimization. Delivers measurable outcomes — faster load times, responsive user experiences, and higher customer satisfaction.

PROFESSIONAL EXPERIENCE

Software Developer — MultiBank Group

Dec 2022 — Present

Dubai, United Arab Emirates

- Led the migration of a 2009 legacy codebase to a modern Vue 3 + TypeScript single-page application (SPA), improving overall system performance by 25%.
- Reduced page load times by 30% through targeted front-end performance optimization during the migration, including code-splitting, lazy loading, and asset optimization.
- Designed and shipped 10+ mobile-responsive features, maintaining compatibility across both legacy and SPA environments.
- Partnered with cross-functional teams to roll out front-end solutions that contributed to a 15% improvement in customer satisfaction scores.
- Authored 5+ functional requirement documents and high-fidelity prototypes to align stakeholders and guide the migration roadmap.
- Extended the existing legacy system with new front-end pages in HTML, CSS, and JavaScript, ensuring business continuity throughout the phased migration.

Front-End Developer — KuwaitNet

Jan 2021 — Dec 2022

Remote — Part-time, alongside other roles

- Analyzed and rewrote a large legacy codebase for the Kuwait Ministry of Foreign Affairs (MOFA) dashboard, focusing on front-end architecture using Vue.js.
- Rebuilt key interfaces to be fully responsive, improving load times by 30% and increasing user engagement across platforms.
- Worked directly with the design team to establish and apply UI/UX best practices across the platform.

Front-End Developer (Contract) — MTS Internet Service Provider

Jan 2019 — Jan 2021

Damascus, Syria

- Developed and maintained an internal system for managing offers, subscriptions, and users, redesigning core workflows for clarity and ease of use.
- Collaborated closely with the DevOps team within a networking-focused environment, building practical knowledge of infrastructure and deployment processes.

Front-End Developer — TargusMe

Jan 2018 — Dec 2019

Damascus, Syria

- Built 20+ landing pages and a dynamic SaaS dashboard enabling clients to manage their own website data, developing strong attention to detail across varied client requirements.
