

MOHAMAD RAMADAN JAMALO

Senior Front-End Developer

Dubai, United Arab Emirates | +971 56 169 8210 | ramadanjamalo@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Front-end developer with 8+ years of experience building and modernizing web applications using Vue.js, React, TypeScript, and JavaScript. Led the migration of a legacy banking platform to a modern SPA, improving performance and usability. Strong record of measurable improvements in load time, performance, and customer satisfaction across banking, government, and SaaS environments.

PROFESSIONAL EXPERIENCE

Software Developer — MultiBank Group

Dec 2022 — Present

Dubai, United Arab Emirates

- Led the migration of a 2009 legacy codebase to a modern single-page application (SPA), improving overall system performance by 25%.
- Reduced page load times by 30% through targeted front-end performance optimization during the migration.
- Designed and shipped 10+ mobile-responsive features, maintaining compatibility across both legacy and SPA environments.
- Partnered with cross-functional teams to roll out front-end solutions that contributed to a 15% improvement in customer satisfaction scores.
- Authored 5+ functional requirement documents and high-fidelity prototypes to align stakeholders and guide the migration roadmap.
- Built and integrated new front-end pages using HTML, CSS, and JavaScript within the existing legacy system architecture.

Front-End Developer — KuwaitNet

Jan 2021 — Dec 2023

Remote — Part-time, alongside other roles

- Analyzed and rewrote a large legacy codebase for the Kuwait Ministry of Foreign Affairs (MOFA) dashboard, focusing on front-end architecture using Vue.js.
- Rebuilt key interfaces to be fully responsive, improving load times by 30% and increasing user engagement across platforms.
- Worked directly with the design team to establish and apply UI/UX best practices across the platform.

Front-End Developer (Contract) — MTS Internet Service Provider

Jan 2019 — Dec 2022

Damascus, Syria

- Developed and maintained an internal system for managing offers, subscriptions, and users, redesigning core workflows for clarity and ease of use.
- Collaborated closely with the DevOps team within a networking-focused environment, building practical knowledge of infrastructure and deployment processes.

Front-End Developer — TargusMe

Jan 2018 — Dec 2019

Damascus, Syria

- Built 20+ landing pages and a dynamic SaaS dashboard, enabling clients to manage their own website data while developing strong attention to detail across varied client requirements.
